

# Your handwriting reveals much more than you might imagine.

There's a whole science behind analyzing handwriting for personality traits called graphology, which has been around since the days of Aristotle. Today, it's used for a variety of purposes, from criminal investigations to understanding your health. Some employers even use handwriting analysis to screen potential employees for compatibility.

**Try writing out a sentence. We suggest: "The quick brown fox jumps over the lazy dog." Then, keep reading to see what your handwriting says about you.**
